## ASX Announcement

### Kat Gap Native Vegetation Clearing Permit Granted

#### Highlights:

- Classic Minerals Limited (ASX: CLZ or “Classic”) receives Native Vegetation Clearing Permit for Kat Gap
- Duration of Permit: 05 March 2022 to 04 March 2027.

Classic Minerals Limited (ASX: CLZ) advises that the Native Vegetation Clearing Permit (CPS 9137/1) for Classic’s Kat Gap mine and processing facility has been granted under s.51E of the Environmental Protection Act 1986 on 10 February 2022.

The clearing areas and proposed site layout are shown below.

CLASSIC MINERALS LIMITED

71 Furniss Rd, Landsdale  
Western Australia 6065

ASX: CLZ | ABN 119 484 016  
[contact@classicminerals.com.au](mailto:contact@classicminerals.com.au)

Classic also refers to the ASX announcement of 26 May 2021<sup>1</sup> wherein Classic confirmed that it had submitted the application for the Native Vegetation Clearing Permit.

The remaining approval is the approval of the Mining Proposal (including Mine Closure Plan). Classic continues to work closely with DMIRS in order to obtain the approvals as early as possible.

Classic's Chairman, John Lester, said:

*"The receipt of the Native Vegetation Clearing Permit at Kat Gap brings us another step closer to commence full scale mining operations at Kat Gap.*

*In the interim, the Company will recommence the Bulk Sample operation to provide valuable material properties to enable us to configure the Gekko plant to operate at maximum efficiency."*

This announcement has been authorised by the Board.
